

**Girona, Spain
July 6-8, 2026**

**II
FC** International
Institute for FRP
in Construction

17th International Symposium on Fiber-Reinforced Polymer (FRP) Reinforcement for Concrete Structures

FRPRCS17 will attract interest from researchers, practitioners, and manufacturers involved in:

- Use of FRPs and composite reinforcement for concrete and masonry structures
- FRP materials and products to reinforce new construction and rehabilitation of concrete structures
- FRP prestressed concrete structures
- Durability of FRP systems
- Sustainability and waste management
- Inspection, monitoring and quality assurance
- Innovative FRP systems & solutions

The appeal of the city of **Girona (Spain)** and its surroundings (such as **Costa Brava and Barcelona**) will attract a high number of FRP specialists and decision makers from a variety of sectors, including research providers, technology centres and industries. This makes **FRPRCS17** an excellent event for companies to showcase their products and services, simulation software, testing and inspection equipment, materials (such as fibres, matrices, adhesives, and consumables), and manufacturing equipment.
